FERMÍN TABOADA

Full Stack Developer with AI | React · Next.js · TypeScript · Node.js · PostgreSQL

Buenos Aires, Argentina (Remote) | +54 9 11 2233-9430 | fermintaboada10@gmail.com | github.com/fermintaboada | linkedin.com/in/fermin-taboada-dev

PROFESSIONAL SUMMARY

Freelance Full Stack Developer with experience building end-to-end web and AI products. I independently designed and developed a multi-tenant SaaS that integrates marketing and e-commerce data, transforms it into business signals, and uses AI agents to interpret performance, define growth objectives, and generate data-driven actions. Experience with APIs, databases, authentication, security, CI/CD, and cloud infrastructure. English C1 / fluent.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router, SSR, Server Components), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, shadcn/ui

Backend & Data: Node.js, Fastify, Express, NestJS, REST APIs, JWT, OAuth, PostgreSQL, Prisma, TypeORM, Supabase, Neon

Artificial Intelligence: Anthropic Claude SDK, Google Gemini API, agentic workflows / tool use, LLM evals, context engineering, prompt engineering

Quality & Cloud: Git, GitHub Actions, CI/CD, Jest, automated testing, Vercel, Render, scheduled jobs, technical SEO, accessibility, web performance

SELECTED PROJECTS

Upscale Lab — AI Marketing Analytics & Growth SaaS | Solo Founder & Developer | 2026 - Present

Next.js · Fastify · PostgreSQL (Neon) · Prisma · Anthropic Claude · Gemini · GitHub Actions

- Designed and built an end-to-end multi-tenant SaaS that integrates marketing and e-commerce data, converts it into business signals, and uses AI agents to interpret performance, define growth objectives, and generate aligned actions and content.
- Built 11 business-signal modules and a context architecture that lets agents reason over structured, persisted data; also created a custom eval system with 24 cases, response-level traceability, and run-to-run comparison.
- Implemented roles and permissions, AES-256-GCM encrypted credentials, versioned migrations, CI/CD, scheduled jobs, and deployment across Vercel/Render/Neon; optimized caching and reduced cost per response by ~40%.

BoletoClick — Full Stack Ticketing Platform | 10-person Scrum Team

Next.js · TypeScript · NestJS · PostgreSQL / Supabase · REST APIs · Stripe

- Developed Full Stack features and integrated Google OAuth, Stripe, REST APIs, and PostgreSQL/Supabase, coordinating API contracts across frontend and backend within a 10-person Scrum team.
- Built reusable components and contributed to code reviews, technical documentation, and deployment workflows focused on quality and maintainability.

Barras Nómades — Production Website for a Client

Next.js · TypeScript · Tailwind CSS · Vercel

- Designed and deployed a production website for a client from requirements through launch, implementing responsive design, technical SEO, semantic HTML, Open Graph, JSON-LD, and Core Web Vitals optimization.
- Implemented an accessible interface and native animations with a focus on performance and minimal external dependencies.

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Independent Projects | Dec 2025 - Present

Build and deploy web applications for clients: requirements, frontend/backend development, API integration, testing, deployment, and initial support.

Customer Success & Operations | Fiskyn Zapatos | 2019 - Present

Manage post-sales operations, issue resolution, and digital operations in a high-volume commercial environment.

Co-Founder & Digital Operations | Waikama | 2019 - 2024

Co-founded an e-commerce footwear brand, covering digital strategy, visual identity, and customer-facing operations.

EDUCATION

Full Stack Web Development & Agile Methodologies — Henry Bootcamp | Feb 2025 - Jun 2026 | 800+ hours in React, Node.js, TypeScript, databases, and Agile/Scrum

Psychology Studies — Universidad del Salvador (USAL) | 2019 - 2024
